## FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act, Section 21E of the Securities Exchange Act of 1934, as amended. Any statement that does not describe historical or current facts is a forward-looking statement. These statements generally can be identified by forward-looking terminology, such as "plan," "seek to," "outlook," "guidance," "may," "will," "anticipate," "should," "would," "believe," "contemplate," "forecast," "expect," "estimate," "continue," "initiatives," and "intend," as well as other similar words and expressions of the future. These forward-looking statements include, but are not limited to, our 2022 Guidance and statements related to future loss/income (including projected non-interest income) of solar tax equity investments. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors, many of which are beyond our control and any or all of which could cause actual results to differ materially from the results expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to:

- negative economic and political conditions that adversely affect the general economy, housing prices, the real estate market, the job market, consumer confidence, the financial condition of our borrowers and consumer spending habits, which may affect, among other things, the level of non-performing assets, charge-offs and provision expense;
- the rate of growth (or lack thereof) in the economy and employment levels, as well as general business and economic conditions, coupled with the risk that adverse conditions may be greater than anticipated in the markets that we serve;
- the COVID-19 pandemic and its continuing effects on the economic and business environments in which we operate;
- continuation of the historically low short-term interest rate environment;
- fluctuations or unanticipated changes in interest rates on loans or deposits or that affect the yield curve;
- our inability to maintain the historical growth rate of our loan portfolio;
- changes in loan underwriting, credit review or loss reserve policies associated with economic conditions, examination conclusions, or regulatory developments either as they currently exist or as they may be affected by conditions associated with the COVID-19 pandemic;
- the impact of competition with other financial institutions, many of which are larger and have greater resources, and fintechs, as well as changes in the competitive environment;
- our ability to meet heightened regulatory and supervisory requirements;
- our ability to grow and retain low-cost core deposits and retain large, uninsured deposits;
- any matter that would cause us to conclude that there was impairment of any asset, including intangible assets;
- inability to comply with regulatory capital requirements, including those resulting from changes to capital calculation methodologies, required capital maintenance levels or regulatory requests or directives;
- risks associated with litigation, including the applicability of insurance coverage;
- the risk of not achieving anticipated cost savings related to reduction in the number of branch locations and other expense areas;
- a failure in or breach of our operational or security systems or infrastructure, or those of third party vendors or other service providers, including as a result of unauthorized access, computer viruses, phishing schemes, spam attacks, human error, natural disasters, power loss and other security breaches, the risk of any of which could be exacerbated by employees and others working remotely as a result of the effects of the COVID-19 pandemic;
- volatile credit and financial markets both domestic and foreign;
- the risk that the preliminary financial information reported herein and our current preliminary analysis could be different when our review is finalized;
- unexpected challenges related to our executive officer retention; and
- risks related to our proposed acquisition of Amalgamated Bank of Chicago, including, among others, that the acquisition does not close when expected or at all because conditions to closing are not satisfied on a timely basis or at all, or that financial projections from the acquisition are not realized.

Additional factors which could affect the forward-looking statements can be found in our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K filed with the SEC and available on the SEC's website at [www.sec.gov/](http://www.sec.gov/). Forward-looking statements are based upon the current beliefs and expectations of management, and on information currently available to management. We disclaim any obligation to update or revise any forward-looking statements contained in this presentation, which speak only as of the date hereof, or to update the reasons why actual results could differ from those contained in or implied by such statements, whether as a result of new information, future events or otherwise, except as required by law.

## NON-GAAP FINANCIAL MEASURES

This presentation contains certain non-GAAP financial measures including, without limitation, “Core Operating Revenue,” “Core Non-interest Expense,” “Tangible Common Equity,” “Average Tangible Common Equity,” “Core Efficiency Ratio,” “Core Net Income,” “Core ROAA,” and “Core ROATCE.”

We believe these non-GAAP financial measures provide useful information to management and investors that is supplementary to our financial condition, results of operations and cash flows computed in accordance with GAAP. Specifically, we believe these non-GAAP financial measures (a) allow management and investors to better assess our performance by removing volatility that is associated with discrete items that are unrelated to our core business, and (b) enable a more complete understanding of factors and trends affecting our business.

Non-GAAP financial measures, however, have inherent limitations, are not required to be uniformly applied, and are not audited. Accordingly, these non-GAAP financial measures should not be considered as substitutes for GAAP financial measures, and we strongly encourage investors to review the GAAP financial measures included in this presentation and not to place undue reliance on any single financial measure. In addition, because non-GAAP financial measures are not standardized, it may not be possible to compare the non-GAAP financial measures presented in this presentation with other companies' non-GAAP financial measures having the same or similar names. As such, you should not view these disclosures as a substitute for results determined in accordance with GAAP, and they are not necessarily comparable to non-GAAP financial measures that other companies use. Reconciliations of non-GAAP financial disclosures to what we believe to be the most directly comparable GAAP measures found in this presentation are set forth in the final pages of this presentation and also may be viewed on the bank's website, [amalgamatedbank.com](http://amalgamatedbank.com).

You should assume that all numbers presented are unaudited unless otherwise noted.

- Realization of tax benefits in the project life and subsequent change in the fair value of the investment creates volatility in the earnings stream
- New solar tax-equity investment contributed \$5.3 million in income in Q4, but is expected to generate losses over the next 3 quarters before reaching a steady state. Existing investments have reached a steady state income phase and all investments are net profitable over their lives
